

How to use this monitor with your tablet or smart phone

You must be on the skate wireless network to connect. Use csc\username
IOS (Apple) and Android devices should download the free MirrorOp for Extron ShareLink. You cannot mirror these devices but you can show documents, photos, videos, web pages, device screenshots, and the device camera. If you have a Galaxy device install the MirrorOp Sender for Galaxy app. You can mirror your Galaxy device.

Opening the app brings you to a screen similar to the one shown. Please note app software updates may slightly change this look.

Remember to disconnect when you are finished and turn off the monitor.
