

CLIC▶search

Top 5 things about CLICsearch, the new CLIC shared catalog

Where's CLICnet?

CLICnet and Summon have been replaced with CLICsearch, a powerful discovery tool that allows users to search for physical and online resources, place requests, manage their library account, and more!

Search Options

Use the different search options to broaden or narrow your results. The default search will pull results that are available through CLIC or online.

My Library Card / Sign In

Sign in to access full text, expanded search results, and account functions like creating folders, saving searches, renewing items, and more.

Expand My Results

Check the box to expand your results to items that we may not have full text access to currently but that can be requested through Interlibrary Loan.

Help
